DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claims 1-2 and 7-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Iliff.

Iliff discloses a system for communicating custom information to an individual including messages and queries, comprising a remote interface located away from individuals residence to communicate information to an individual, a server connected to remote device generating a script program, a remotely programmable apparatus in a residence networked to said server via a communication network, a modem for receiving said script program from said server, memory device for storing said script program, user interface configured for conveying the information and for receiving input from the individual, and processor device for executing said script program, said processor device connected to said communication device and to said memory device (columns 2-5).

Allowable Subject Matter

3. Claims 3-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any
